Homeward Bound Seiners Made Hauls Friday Off Canso, N. S.

A Liverpool, England, report gives the shipments of Irish mackerel for the week ending June 6 as follows: To Boston, 938 barrels; to all other ports 1300; total, 2238. Count of shipments, 300 to 350. State of fishing fair to good.

One hundred tons of mackerel were sent away from Milford Haven recently, when a lot of small fish made no more than 3 s. 6 d. per 120; but with light supplies later the price rose to 8 s., a few Irish landing daily making 13 s. to 16 s. per 120. Several mackerel buyers have closed operations.

Chebucto Bay, N. S., reports the greatest catches in the history of the place. Thousands of barrels are being salted.

DOES GOOD WORK.

French Hospital Ship Now on Banks with Fleet.

The French hospital ship St. Francis d'Assisi arrived at Sydney last week from the coast of Newfoundland. The mission of the vessel is to minister to the spiritual and physical needs of the fishermen on the high seas. The work is carried on by the Societe des Oeuvres Mer and was established in 1904. The ship leaves Havre on March 15 each year and visits Iceland during the first part of the fishing season, then crosses to Newfoundland about May. She makes five or six cruises to the Banks, returning to France about the end of September with the sick and the convalescent. The work of the hospital ship is completed by two "homes," one at St. Pierre, Miq., and the other at Faskrudsfjord, Iceland, each under a chaplain.

Roy Nickerson of sch. Mettacomet, which arrived at Boston yesterday, had an unusually long struggle with a large fish taken by that schooner. The spearsman struck the swordfish about 8 in the morning. It was Nickerson's turn to take the dory for the capture of the fish and he was put into the dory as it swung over the rail a few minutes after the fish was speared. He rowed out to where the big fish was struggling with the buoy tied to the end of the long line attached to the lily iron that was embedded in his body, and got the buoy on board. From then until 2 o'clock in the afternoon he was pulled hither and thither by the big swordfish, which when cleaned and made ready for market weighed above 400 pounds. In all the struggle Nickerson had only to wait until the fish tired itself out, but as often as he hauled the line but he set the fish agoing again.

Harty had 550 barrels, sch. Alert 500 and sch. Squanto 330 barrels. It is thought from this that schs. Mary E. Harty and Alert have fresh mackerel on board.

Thus far ten sail of the Cape Shore fleet have been home, with 2475 barrels of salt mackerel and about 3700 barrels of fresh mackerel, this latter based on an estimate of 90 fish to the iced barrel.

This, together with the 22 sail with 5100 barrels at Louisburg, account for 33 vessels or half the fleet, with practically 7500 barrels of salt mackerel.

This morning a big seiner deeply laden, tacked off Eastern Point, bound for Boston. She was too far off to make out her name.

Capt. Charles H. Harty of sch. Constellation reports that on Thursday, when he finished up, sch. Aloha and two others were the only ones to get hauls.

Schs. Constellation and Annie Greenlaw came to this port from Boston, with their salt mackerel, last evening. Sch. A. M. Nicholson also came down, having sold her salt ones in Boston.

The seiners home yesterday all report seeing fish while coming to the westward. Sch. Annie Greenlaw fell in with a good body 70 miles to the westward of Whitehead, N. S. He made a set and took care of some of the fish, but had to let most of them go, having no more ice or salt or room.

Sch. Terra Nova was reported at Louisburg, C. B., on Sunday with 500 barrels of salt mackerel.

T wharf, Boston, was a scene of excitement and bustle yesterday morning. Not only were there over 20 vessels there with groundfish, but there were two seiners with large numbers of mackerel, and a third one came in before business was two hours old. Besides these there were quantities of fish of all kinds received by rail and boat, and while ice teams and handcarts blocked the north side of the wharf, express teams and handcarts were jammed on the south side, where the mackerel seiners were unloading, watched by a large crowd of sightseers.

As the mackerel are cheap and good, and there will be more coming now almost daily, much of the fish brought in at Boston will be sent to the freezer to be chilled down for next winter.

The captains of the seiners brought word that the schools run large, and the large fish are so heavy that the seines are taxed to their last endurance to hold the fish, once the seine

which there were at least 1000 barrels, and got the seine around them, and the men were hauling it to the boat when the weight of the fish nearly turned the boat over. For a time it was a question whether or not the men would be drawn into the ocean, when, fortunately for them, although they do not put it that way, the seine broke in the middle, letting out all the fish but 15 barrels, but saving the boat and the seine.

Sch. Constellation counted out 36,000 fresh mackerel at Boston, yesterday, and did not finish getting her fresh ones out and will finish up on them this morning.

Sch. Monarch, Capt. John F. Vautier, stocked \$4900 as the result of her recent Cape Shore trip the crew sharing \$104.80.

Sch. Annie Greenlaw counted out 20,127 fresh mackerel at Boston yesterday.

The following netters were at Newport yesterday with fares of large fresh mackerel as follows:

Sch. Gracie Freeman, 27 barrels.

Sch. M. Madeleine, 33 barrels.

Sch. Marguerite, 33 barrels.

Sch. Clara, 18 barrels.

Sloop Sarah, 23 barrels.

Sloop Louise, 14 barrels.

Sch. Mabel Bryson, 33 barrels.
